1. Claims 1-12 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on March 31, 2010.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim13 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Japan'995 (Japan 2-23995).

Re claim 13, note that Japan'995 is cited disclosing a method for controlling a dishwasher comprising the steps of:

putting a washing pump into operation;

detecting turbidity of the washing water;

adjusting a washing time period (see "time increased") preset at a control unit according to the turbidity

detected thus; and

operating the washing pump (see "water flow") according to the washing time period adjusted thus.

4. Claims 15, 17 and 18 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Germany'428 (Germany 197 45 428).

Re claim 15, for example, note that Germany'428 is cited disclosing method for controlling a dishwasher comprising the steps of"

putting a washing pump into operation;

detecting turbidity of the washing water;

draining a portion of the washing water (see empties") by operating a drain pump if it is determined that the turbidity detected thus is higher than a turbidity range preset at a control unit; and

supplementing the washing water as much as the drain portion of the washing water (see "refilling to original level").

5. Claims 14, 16, 19 and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. In Jenkins, Meyers, Ishibashi et al., Imai et al., Cooper et al., Japan'698, Japan'158, Japan'185, Japan'189, Japan'279 and Japan'289, note the control arrangements.
